

## How to Clear Browser Cache for IE6, IE7 and Firefox

### Clearing Browser's Cache for IE 6

To clear your cache:

1. On the Internet Explorer 6 **Tools** menu, click **Internet Options**. The Internet Options box should open to the **General** tab.
2. On the **General** tab, in the **Temporary Internet Files** section, click the **Delete Files** button. This will delete all the files that are currently stored in your cache.

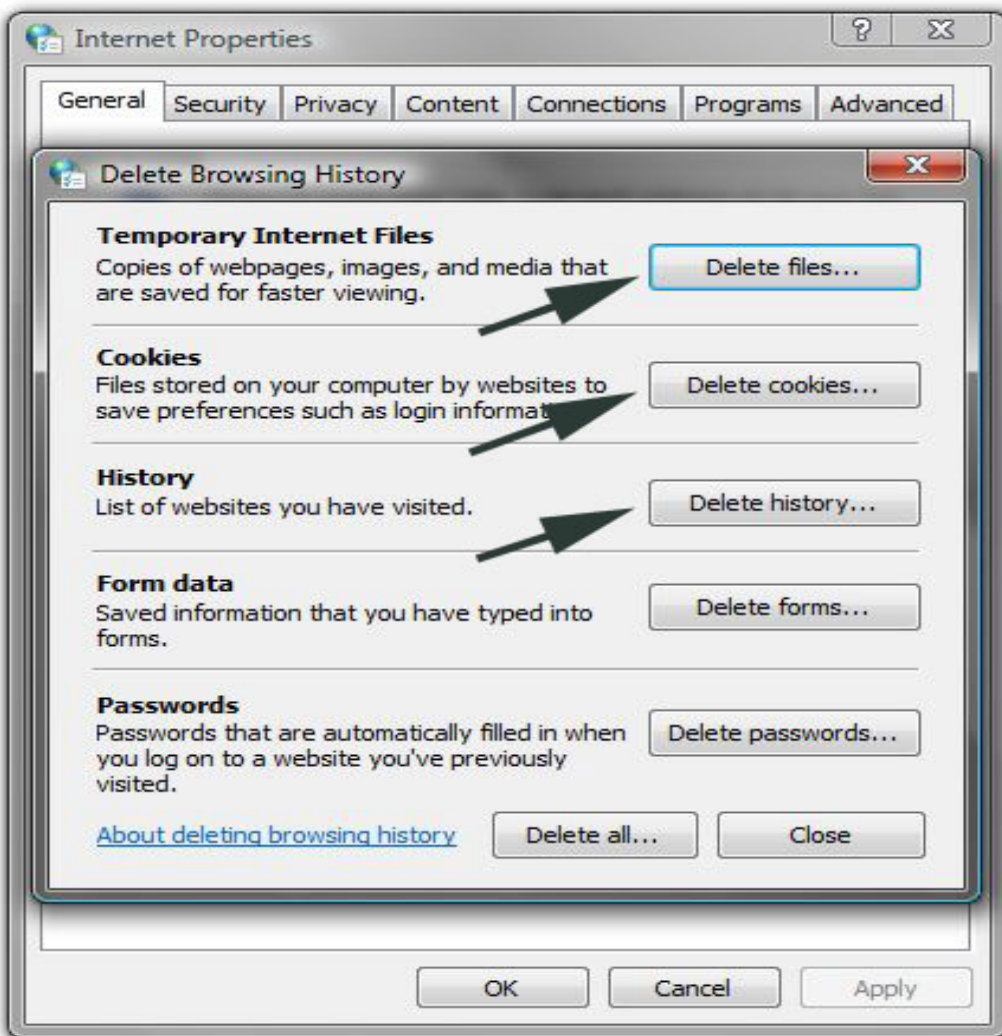

3. Click **OK**, and then click **OK** again.

### Clearing Browser's Cache for IE 7

1. On the Internet Explorer 7 **Tools** menu, click **Internet Options**. The Internet Options box should open to the **General** tab.

2. On the **General** tab, in the **Browsing history** section, click the **Delete...** button. This will bring up the Delete Browsing History Box.
  - Select the **Delete files...** button to delete Temporary Internet Files
  - Select the **Delete cookies...** button to delete Cookies
  - Select the **Delete history...** button to delete your browsing history
3. After you select delete a box will appear asking you to confirm you would like to delete the files.  
Select **Yes** for each one.

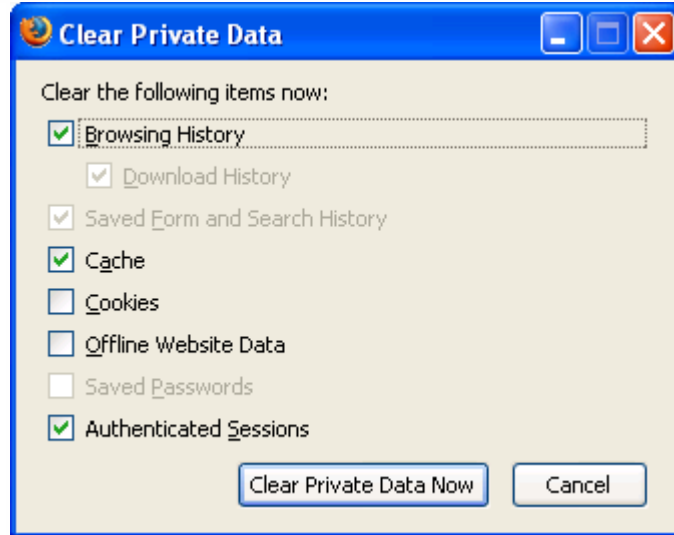

4. Confirm that you want to delete temporary files **Click Yes** on “Are you sure you want to delete all temporary Internet Explore File”.
5. Then click **Close and OK** again.

## Clearing Browser's Cache for Firefox

1. Open Firefox and go to **Tools**
2. Click **Clear Private Data** (or by ctrl+shift+Del)

3. Choose which items you wish to clear

4. Click **Clear Private Data Now**.
