Mrs. Carter called on Dr. Judson Edwards to brief the Board regarding the Innovation, Design, and Entrepreneurism Accelerator (IDEA) Center.

#### **o Update on new IDEA (Innovation, Design, and Entrepreneurism Accelerator) Center—Dr. Judson Edwards**

In summary, Dr. Edwards advised the Board that the IDEA Center will be located in downtown Troy in a former bank building that will be transformed into the IDEA Center. Dr. Edwards shared that this initiative could eventually play into the way we turn research into business and this will help grow involvement among the students, faculty, alumni, businesses, and the community. The Center's focus will be to assist students in becoming entrepreneurs. As an example, Dr. Edwards shared a story about one of Troy's students, Avalon Dudinsky, and the success she has had in starting her own small business. With this new center, students will have available all resources they need to assist them in startup of a business.

Dr. Edwards elaborated by saying the vision for the Center has four components: Creation, Learning, Engagement, and Living environment. He added that having a living/learning center would bring more activity for the downtown area. Dr. Edwards further stated that with a vision of 10,000 students by 2020 and the creative energy this initiative brings, it would serve as a foundation of economic and social growth.

In closing, Dr. Edwards shared in more detail the proposed housing piece of the proposed Center. He responded to comments and questions from Board members. Mr. Higgins stated that moving this initiative to the forefront would help with increasing enrollments. He commended Dr. Edwards and encouraged him to promote the Center through regional career fairs throughout schools and communities.

Mrs. Carter thanked Dr. Edwards for the update and then called on Dr. Earl Ingram to present the Textbook Selection Policy.

WHEREAS, Troy University is committed to the highest standards of student service; and

WHEREAS, the cost of textbooks is at an all-time high, thus lowering the cost of textbooks and supplemental academic materials will make obtaining a degree more affordable; and

WHEREAS, in 2006 Troy University established a policy governing textbook selection (Policy 310.2.15); and

- **Student Affairs Committee, Honorable Lamar P. Higgins**

Mr. Higgins reported that the Student Affairs Committee met and identified a couple of items for further discussion. The first related to housing and Mr. Higgins noted that when we built New Hall we lost 50 beds and currently there are 156 people on a waiting list. It was the will of the committee that we look at a feasibility study and join with the community to explore the public market for the options to build affordable housing for students. Mr. Higgins added that possibly it might be that a committee be appointed to look at the housing situation and explore options. He added that once options are explored the chair might want to refer the findings to the Finance Committee or to the Executive Committee for further discussion and review.

Another issue that came up in the Student Affairs Committee meeting was the need for the Trojan Center to be renovated. He added with the loss of Sartain Hall we are limiting space for outside venues as well as internal groups to host meetings on campus and the renovation of Trojan Center and any other areas on the campus would be of benefit in that regard.

In concluding his Student Affairs report, Mr. Higgins presented Resolution No. 3 commending outgoing SGA President, Olivia Melton, for adoption.
