The academic mission of the Sorrell College of Business is to prepare a diverse body of students for entry and personal growth in business and government-related careers by means of high quality instruction delivered in traditional, nontraditional, and emerging electronic formats.

Our students are currently employed in, or endeavor to be employed in, business, government, public accounting, the U.S. military, and not-for-profit organizations, both in the United States and the world over. Today many are, or intend to be, self-employed. Undergraduate students are prepared for admission to graduate programs in business, information systems, and professional schools of law. Sorrell College of Business students graduate with the knowledge and skills needed to communicate effectively, to make ethical and socially-responsible decisions, and to understand diverse and international cultures.

Sorrell College of Business faculty members are highly qualified and possess diverse academic and business backgrounds. Because our faculty members have “real-world” experience, course instruction focuses not only on vital concepts but also on practical application of these concepts.

All academic programs offered by the college assist students to develop the knowledge, skills, and attitudes necessary to understand and cope with the challenges faced by business and organizational leaders in a dynamic, global workplace. The curriculum is highly germane to the needs of students and the requirements of their employers. Combining the relevance of the curriculum with the fact that our faculty holds students to a high standard throughout their academic experience at Troy means that the academic programs offered through the Sorrell College of Business are designed to provide a firm foundation for professional business leaders who, upon graduation, will have the skills necessary to embark on, or change course in, successful careers in business, industry, and government.

Majors within the Bachelor of Science (or Arts) Business Administration degree are offered in accounting, general business, finance, information systems, management, marketing, and risk management and insurance. Within the management and general business majors, students may select concentrations that focus on international business, business economics, human resource management, small business and entrepreneurship, as well as production and operations management. Within the information systems major, students may focus on networking, general information systems, or web development. A Bachelor of Applied Science degree is offered in resources and technology management. Minors are offered in business administration and information systems.

As part of ongoing planning and evaluation, the Sorrell College of Business regularly evaluates student learning outcomes for each degree program.

## ACCREDITATION

Troy University, through its Sorrell College of Business, is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) to offer baccalaureate degree programs in accounting, finance, general business, information systems, management, and marketing. The ACBSP has also accredited Troy to offer the Master of Business Administration.

Specializations are not available in fields of study that are offered through Troy University as majors, programs, or minors, i.e., nursing, computer science, information systems, or education. Specialized technical knowledge and course work will normally be recognized in the following areas which are incorporated under the technology resources management program:

- Acquisitions/Contracts
- Air Traffic Control
- Aircraft Maintenance
- Aviation Operations
- Contracts and Acquisitions
- Electronics
- Fire Science
- Military Science
- Other Approved Technical Areas

For a student to qualify for the transfer of technical credit from a regionally accredited community college or technical school, he or she must have a minimum of 18 semester hours of transferable credit (in the same technical field) with a minimum overall grade point average of 2.0 on a 4.0 scale.

Upper level business or technology electives (12-18 hours)

---

1The 48 hours of general studies must include six hours of Principles of Economics I & II and MTH 2201 completed with a grade of C or better.

2Students must complete the following lower-level courses (or their approved transfer credit equivalents) with a grade of C or higher in each course before registering for any upper level course in the business curriculum: ENG 1101/03, ENG 1102/04, MTH 2201, IS 2241, ACT 2291, ACT 2292, ECO 2251, ECO 2252, QM 2241, LAW 2221, and all 2000-level courses in the major and minor. Students may enroll concurrently in the last of these courses along with their initial 3000-level courses subject to their adviser’s approval and consistent with published prerequisite requirements. Under no condition may a student enroll in a 4000-level course without the satisfactory completion (grade of C or higher) of the lower-level courses listed above.

3Transfer credit will not be awarded for any course to be used in the business core or major in which a C grade or higher has not been achieved.

4Students must achieve an overall C average in both their business core and their business major in order to be eligible to graduate. All courses should be taken in the appropriate numerical sequence (i.e., 3000-level courses should be completed before attempting 4000-level courses).

**Specialized technical courses (12-18 hours)**

Credit will be awarded for specialized technical knowledge based upon one or all of the following: American Council of Education credit recommendations, credit for experiential learning that has been evaluated by Troy University faculty and approved by the appropriate dean or transfer work from regionally accredited (Southern Association of Colleges and Schools, etc.) post-secondary community college or technical schools as approved by the Academic Council.

Transfer credit will not be awarded for any course to be used in the business core or major in which a C grade or higher has not been achieved.

Students must achieve an overall C average in both their business core and their business major in order to be eligible to graduate. All courses should be taken in the appropriate numerical sequence (i.e., 3000-level courses should be completed before attempting 4000-level courses).
