The purpose of the Master of Business Administration program is to offer students an opportunity to acquire proficiency in general business management and decision-making skills that will enable them to carry out managerial responsibilities in both the private and public sectors. As a result of successfully completing the MBA program, graduates should improve their ability to apply strong problem-solving skills to the strategic planning process in organizations and to use written and verbal communication skills effectively to communicate the results of their problem-solving analyses and recommendations. Concentrations offered in accounting and information systems provide additional specialized study related to the strategic management process in organizations.

The purpose of the Executive Master of Business Administration program is to provide an advanced level of general business education to graduates of baccalaureate programs who meet a stipulated professional experience prerequisite. This opportunity enables these students to be successful in management positions in both the private and public sectors. The program is organized to support specific and general needs of professionally diverse groups of students by providing advanced study in business administration to students who have acquired a common body of knowledge through education and professional experience. Minor modifications in curriculum allow the EMBA program to meet specific corporate or other organizational needs in contractual programs. As a result of successfully completing the EMBA program, graduates should improve their ability to apply problemsolving skills to the strategic planning process in organizations and to use written and verbal communication skills effectively to communicate the results of their problem-solving analyses and recommendations.

Admission Requirements

Unconditional Admission

MASTER OF SCIENCE IN MANAGEMENT (MSM)

The purpose of the Master of Science in Management program is to provide a specialized professional program for the student who wants to acquire proficiency in management skills, including decision making, which will enable the graduate to carry out responsibilities in both general and specialized managerial roles. Concentrations in Human Resource Management, Information Systems, Leadership and Organizational Effectiveness, International Management, and Healthcare Management further develop managerial problem-solving skills in specific areas of applied management. As a result of successfully completing the MSM program, graduates should improve their ability to apply problem-solving skills to operational and strategic planning processes and to use written and verbal communication skills effectively to communicate the results of their problem-solving analyses and recommendations.

Business Foundation Requirements for the MSN

1. The foundation course requirements to enter the MSM degree program ensure that students have acquired a common body of knowledge in business administration.
   a. Candidates for admission to the MSM degree program must have earned an undergraduate degree in business administration from a school holding ACBSP or AACSB specialized accreditation for its business degree program within eight years of enrolling in the MSM program.
   OR
   b. Before attempting 6000-level course work, the student will have successfully completed, within eight years of enrolling in the MSM program, all courses or their equivalent in the following subject areas from a school holding ACBSP or AACSB specialized accreditation for its degree program:
      - Principles of Management
      - Principles of Marketing
      - Managerial Finance
      - Accounting (principles of financial and managerial accounting or their equivalent)
      - Legal Environment
      - Microeconomics
      - Statistics
      - Global Business Issues
      - Information Systems (or documented completion of an MS Office workshop/certification, minimally in Word and Excel)
2. If the foundation course requirement is not satisfied by either paragraphs 1.a or 1.b above, to include the restrictions related to currency (i.e., within eight years of initial enrollment in the MSM program) and specialized accreditation, then unless specifically waived by the MSM Program Director based upon relevancy of professional business experience subsequent to the award of a four-year business degree, the following MSM foundation courses must be successfully completed with a “B” grade or better through Troy prior to enrolling in 6000-level courses for which they are identified as prerequisite courses:

- **BUS 5502** 3 Fundamentals of Accounting and Finance
- **BUS 5503** 3 Fundamentals of Economic Analysis and Business Law
- **BUS 5504** 3 Fundamentals of Management and Marketing
- **BUS 5505** 3 Fundamentals of Information Systems and Quantitative Methods

3. If the content of the MSM foundation coursework has been completed and, (1) the content is more than eight years old, or (2) the content of the foundation courses was completed at a school without ACBSP or AACSB specialized accreditation for its business degree programs, the student may attempt to qualify for a waiver of these two requirements by achieving a satisfactory score on the Educational Testing Service Major Field Tests in Business (Undergraduate). A satisfactory score is defined as no less than one half standard error of the mean below the national average reported at the time the exam is attempted. For this catalog year, a score of 146 (rounded up) is acceptable.

### Admission Requirements for the Master of Science in Management

#### Unconditional Admission

1. Students applying for admission must provide official transcripts from all universities attended.

2. Applicants who have completed a master’s or higher degree from a regionally accredited university may be admitted unconditionally. (No graduate admission test scores are required.) Official transcripts from all universities attended must be submitted, to include an official transcript showing completion of a master’s or higher degree.

3. A bachelor’s degree from a regionally accredited college or university is required. (Students with a baccalaureate degree from an unaccredited or otherwise accredited institution should see Unaccredited or Otherwise Accredited Student Admissions.)

4. Applicants must have achieved at least 2.5 GPA on all undergraduate work or at least 3.0 GPA on the last 30 semester hours.

5. Official graduate admission exam results (GMAT, GRE [verbal and quantitative]), must be on file (except for applicants with a previous masters or higher degree; see #2 above). The GMAT score must be 500 or better; the GRE score (verbal and quantitative) must be 900 or better.

6. A letter of recommendation is required with all applications for the MSM program. The individual’s potential for success in the MSM program, his/her professional, managerial or administrative experience, as well as his/her written and oral communication skills must be addressed.

#### Conditional Admission

Students not satisfying the minimum graduate admission test score and grade point average requirements for unconditional admission may be conditionally admitted to the program. After the student completes the first three graduate (5000-6000 level) courses with a “B” or better average, the student will be granted unconditional admission. Students not satisfying conditional admission requirements will be dropped from the program for one calendar year, after which time the student must petition for readmission. A letter of recommendation is required with all applications for the MSM program. The letter should address the individual’s potential for success in the MSM program as well as his/her written and oral communication skills.

#### Transfer Credit

A maximum of two courses (six semester hours) taken at another regionally accredited institution, each with a “B” grade or better, can be applied toward the degree. The capstone course MGT 6685 Management Strategy must be taken with Troy University and will not be accepted as transfer credit from another institution. These courses must be comparable in catalog description to Troy courses and must be approved by the appropriate dean/associate dean/department chair. Note that in the Applied Management concentration, no transfer credit is permitted.

#### Admission to Candidacy

To be admitted to candidacy, students must have a 3.0 GPA on all work attempted. Unconditionally admitted graduate students must apply for admission to candidacy within the first eighteen semester hours of graduate coursework and complete any additional requirements outlined for the specific degree program. If not completed within the first eighteen hours, a hold will be placed on the student’s registration until Degree Plan/Admission to Candidacy process is completed.

#### Degree Requirements

Students graduating with the MSM degree will have successfully completed the following ten course curriculum. Thirty (30) semester hours is required for all concentrations. Students are required to complete the Graduate Educational Testing Service Major Field Test and a Capstone Examination in MGT 6685 Management Strategy. Students must achieve an overall grade point average of 3.0 (A=4.0) to fulfill requirements for the degree.

If a "D" or "F" is made in a core course or a restricted elective course, the course must be retaken. If the student makes a "D" or "F" in an elective course, the course may be retaken or another elective taken in its place.

For students pursuing the MSM degree with a dual concentration, a single course can be applied only one time to satisfy degree requirements.
