

COLLEGE OF HEALTH AND HUMAN SERVICES

The College of Health and Human Services was formed in 1994 in order to provide quality education for professional practice in a variety of areas associated with health and human services. The college aspires to the highest standards of educational excellence, blending a professional perspective with a liberal arts and science foundation.

Within the College of Health and Human Services are the School of Nursing, the Department of Social Work Human Services, the Department of Kinesiology and Health Promotion, and the Department of Athletic Training Education Program.

The college is committed to meeting the challenges of the next decade; hence, it emphasizes quality teaching and values scholarly activity. The college is committed to the development of its

students into knowledgeable, caring, responsive and self-directed individuals able to meet the health and human caring needs of a diverse and complex society through change, advocacy and leadership within their communities.

As part of ongoing planning and evaluation, the College of Health and Human Services regularly evaluates student learning outcomes for each degree program.

Department of Human Services and Social Work

Case Management Minor

A minor in Case Management is offered to students who desire a basic understanding of the process and foundational skill sets necessary to provide case management services in a variety of settings.

Human Services Major

The purpose of the human services major is twofold: (1) to prepare the graduate for entry level positions in a myriad of human services delivery systems where specialized training is not required, and (2) to prepare students for graduate education. The curriculum is designed to provide the student with an understanding of human behavior within the context of the social environment, an understanding of social and human service delivery systems, and basic skills in effective communication with client systems and basic skills in the development of intervention strategies to resolve interpersonal and social problems. A three-credit, 120-clock-hour field practicum is required.

Human Services Minor

A minor in human services is offered to students who desire basic understanding of the human services delivery system.

Social Work Major

The social work program is accredited by the Council on Social Work Accreditation and program graduates are eligible to sit for social work licensure examination. Social work licensure is required in the state of Alabama for those in the practice of social work. The principle educational objective of the social work program is the preparation of graduates for beginning level generalist social work practice. The curriculum is designed to provide the beginning-level practitioner an ability to apply an eclectic knowledge base guided by professional values; to use a wide range of intervention skills to target any-sized client system (micro to macro levels) while employing a planned change process directed toward client empowerment; to work effectively, under supervision, within social service delivery organizational structures while employing a wide range professional roles. A 12-credit-hour field practicum is required (minimum of 400 clock hours).

Department of Kinesiology and Health Promotion

One of the oldest departments on campus, Kinesiology and Health Promotion consists of three undergraduate degree options and boasts more than 500 majors in the department. These degree options include Exercise Science, Health Promotion, & Physical Education.

Exercise Science

If a career in physical therapy, occupational therapy, clinical exercise testing and prescription, cardiopulmonary rehabilitation, health-fitness/wellness, strength and conditioning or nutrition is in your future, a Bachelor of Science in exercise science is a perfect fit. This competitive program includes concentrations in pre-health

professions, health and wellness, or nutrition, and incorporates coursework from five academic departments spread across two colleges.

With an emphasis on preparation for entry into graduate health profession schools in the fields of physical therapy, occupational therapy, and physician assistant, you will be prepared to successfully enter into graduate health profession schools nationwide. Upon completion of the program, you will also be prepared to sit for certification examinations offered through the American College of Sports Medicine, National Strength and Conditioning Association, and other organizations in the related fields of health and fitness, clinical exercise testing, and strength and conditioning.

Physical Education

If you are passionate about teaching others the skills necessary to participate in health enhancing sport and physical activity for life, the Bachelor of Science in physical education (Teaching Certification) at Troy is for you. This program prepares preschool – 12th grade teachers to impact students in team, individual, and lifetime sport skills in order to enhance their quality of life beyond their school years. At Troy University our physical education program is based on three beliefs, 1. Teach students the proper skills necessary to participate in a variety of sport, individual, and lifetime activities, 2. Provide opportunities for the student to learn and participate in a wide variety of physical activities, 3. By doing so the student will find something they enjoy and are successful at and will continue to do this throughout life in order to lead a healthy active lifestyle.

Many of our graduates in health and physical education choose to double major. This is highly recommended by our department to provide more opportunities for our graduates. It is for this reason our department has such a high job placement rate. Troy University has set itself apart from many other programs (at other Universities throughout the state and southeast) by offering both majors and the option to double major. A mere 18 hours extra (one more semester) can provide the graduate with two degrees and prepare them for dual certification in physical education and health education making them more marketable than a graduate with only one of the aforementioned degrees.

School of Nursing

The School of Nursing programs are designed to develop expertise necessary for the practice of nursing in a complex, changing health care system. Faculty are well qualified.

Students are accepted for admission to the ASN (Montgomery Campus) and BSN (Troy and Dothan Campus) programs in the spring and fall semesters. The ASN degree may be completed in five semesters. The BSN degree may be completed in nine semesters. Registered nurses may receive advanced placement in the online RN Mobility track of the BSN Program. For information related to progression from RN Mobility track to the Family Nurse Practitioner or Healthcare Informatics and Nursing Leadership tracks in the MSN Program or the DNP program, consult the Graduate Catalog. Admission to the School of Nursing is selective, based on established criteria for each program.

All students must maintain current CPR certification, annual

proof of TB testing, and proof of annual physical examination when enrolled in clinical nursing courses. Students are responsible for their own medical care if needed in the clinical setting and must have health insurance. Students must abide by Centers for Disease Control, HIPAA, and OSHA guidelines. Students must present titer reports for Hepatitis B, measles, mumps, rubella, and varicella zoster. Drug screening and criminal background information are required before students may attend clinical course practicums. Students may have additional requirements based on specific facility policies. Standardized achievement tests are required at various points in the undergraduate programs of learning.

Students in the School of Nursing must comply with legal, moral and legislative standards in accordance with the Alabama Board of Nursing Administrative Code. A student may be denied permission to write the licensing examination to become a registered nurse (RN) if he/she has been convicted of a felony.

Challenge examinations are available for various courses for students who meet the eligibility criteria. No nursing course may be audited before it is taken for credit.

Many nursing courses have additional laboratory fees. These fees are printed in the schedule of classes.

Admission is competitive. All students who meet minimum requirements may not be admitted.

EXERCISE SCIENCE PROGRAM (123 HOURS)

This degree has specialized general studies requirements (see areas III-V). Students should consult with an Exercise Science Program adviser along with this catalog. Students enrolled in the Exercise Science Program should select an area of concentration from the following: Wellness and Fitness, Nutrition, or Pre-Health Professions. Students considering applying to a graduate health professions school (e.g. PT, OT, PA) assume responsibility for determining appropriate prerequisite courses required for admission.

Students must achieve a C or better in all courses contained in Area III, Area V, program core, and concentrations. If a student earns a D or F in any of these courses the course must be repeated.

All Exercise Science Program students must present proof of professional liability insurance in order to enroll in KHP 4498 Internship in Exercise Science. Professional liability insurance may be purchased through the College of Health and Human Services, and must be maintained in force through completion of the internship.

**NURSING, ASSOCIATE OF SCIENCE (ASN)
(70 HOURS)**

Admission

Admission to the ASN program is competitive. Meeting minimal admission criteria does not guarantee acceptance. The admission process is completed in two steps. Students wishing to major in nursing at the associate level must either be unconditionally admitted or have completed all developmental coursework. Students not meeting this requirement will need to

declare Applied Health Sciences as a major until all developmental course work has been successfully completed. Once requirements are met, then students can declare a major of nursing.

Students are admitted into step one of the ASN Program year-round. The Admissions Committee reviews all records of qualified applicants.

Step One:

For admission to the ASN program, the student must:

1. Submit application for admission to undergraduate studies with \$30 application fee;
2. Submit **Official** high school transcript or the equivalent (GED). A high school transcript or GED is not required for students transferring in a minimum 12 semester hours of college credit;
3. Submit **Official** transcripts from all colleges and universities attended;
4. Meet all unconditional admission requirements for freshman students as listed in the Troy University undergraduate catalog and; have a minimum grade point average GPA of at least 2.75/4.0 scale on all college work attempted at the undergraduate level and a minimum grade point average of at least 2.0/4.0 scale on all college work attempted at Troy University at the undergraduate level. If less than 12 HR of college work has been attempted, you must have a minimum 2.75/4.0 High School GPA or a GED with a score of 500; and
5. Meet core performance standards required for duties of the nursing profession (copy of standards available upon request).

Step Two:

1. Apply for admittance into the clinical nursing sequence. The deadline for filing an application and all required admission documentation is May 30 for fall admission and October 30 for spring admission.
2. Admission is based upon a point system comprised of overall GPA and grades in required courses
 - a. Student will lose points for courses that were dropped or failed.
 - b. Any student that fails a first-semester nursing course after being admitted to the clinical sequence will have to return to the "selection group" and attempt to be reselected based on the points system in order to repeat a course the following semester.

NOTE: If a student is attempting to transfer credit for nursing courses from another accredited school of nursing, a letter from the dean/director of that school must be submitted stating that the student was eligible for continuation in the nursing program. If the student was not eligible for continuation in the program, the student must take all required Troy University ASN nursing courses (i.e., no nursing courses will be transferred).

Progression

- a. Student must maintain an overall Troy University GPA of at least 2.0 on 4.0 scale while enrolled in nursing courses.
- b. Student must earn a grade of C (74%) or better in each required course.
- c. A student will be able to repeat a nursing course only one time to achieve a grade of C or better.
- d. A student may repeat only one ASN Program nursing course (with the exception of NSG 2204 or NSG 2213); therefore, a second D or F in any ASN nursing course (with the exception of NSG 2204, or NSG 2213) will result in automatic dismissal from the Program.
- e. Student must make 90% or higher on a dosage and solutions calculation examination in NSG 1151 to progress in the program.
- f. Student must complete the program within four years from the date of initial enrollment in the first clinical nursing course (NSG 1131) to remain in the program. Whether a student drops, fails or withdraws from NSG 1131 the student can only re-enroll once more. If a student drops, fails, or

withdraws a second time, the student will be dismissed from the ASN program.

Degree

Upon satisfactory completion of the program, the student is awarded the Associate of Science in Nursing degree and may then apply to the Board of Nursing to write the licensing examination to become a registered nurse (RN).

Location

The ASN program is located at 340 Montgomery Street, Montgomery, AL, 36104. The clinical facilities used for student learning experiences are located within an approximate 50-mile radius of Montgomery. Students are responsible for their transportation.

Accreditation

The associate nursing program at Troy University at the Montgomery Campus located in Montgomery, Al is accredited by the:

Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400
Atlanta, GA 30326
(404) 975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the associate nursing program is Continuing Accreditation.

**NURSING, BACHELOR OF SCIENCE (BSN)
(124 HOURS)**

Students wishing to declare a pre-nursing major at the baccalaureate level must either be unconditionally admitted and/or have completed all developmental coursework and cleared conditional status. Students not meeting these requirements will need to declare Applied Health Sciences as a major until all developmental course work has been successfully completed and/or conditional status has been cleared. Once requirements are met, then students can declare a major of pre-nursing or nursing.

Admission

Admission to the BSN program is competitive. Meeting minimal admission criteria does not guarantee acceptance. For admission to the BSN program, students must

1. have an overall GPA of at least 2.5 on 4.0 scale. (All hours attempted are used in calculation of overall GPA.)
2. file written application with the School of Nursing. Consult academic adviser or BSN Coordinator. For information regarding BSN courses on the Dothan campus, please contact the School of Nursing at (334) 983-6556 EXT 1435. Deadlines for receipt of BSN applications are March 15 for fall semester and Sept. 15 for spring semester. Registered Nurse students enrolling in the RN Mobility track should contact the RN Mobility Assistant Coordinator for admission times.
3. have successfully completed general studies courses. A grade of C or above is required in many of these courses. For additional information, contact the office of the BSN Program Coordinator or visit the School of Nursing website at www.troy.edu.
4. have a current, unencumbered RN license in state of clinical practice if student is entering the RN Mobility course sequence.
5. be able to achieve certain core performance standards required by the duties of the nursing profession.
6. If transferring from another school of nursing, submit a letter from the dean/department chair of that school stating that the student was eligible for continuation in the school. Students transferring from another school of nursing who are not or were not eligible to continue in the nursing program in which they are/were enrolled are not eligible for admission to Troy University's BSN program unless they first completed an associate degree program from a regionally accredited institution and/or Accreditation Commission for Education in Nursing (ACEN) accreditation and are registered nurses.

Progression

- a. Students are required to have an overall GPA of 2.5 on a 4.0 scale for enrollment in the Clinical Nursing Sequence.
- b. Students are required to make a grade of C or better in each nursing course.
- c. Students may repeat only one 3300-4400 level nursing course required in the BSN clinical nursing sequence (with the exception of NSG 3315, Pathophysiology): therefore, a second D or F in any 3300-4400 level nursing course (with the exception of NSG 3315 Pathophysiology) will result in automatic dismissal from the program.
- d. Students who are planning to apply, or have applied, but have not yet begun, the BSN Clinical Nursing Sequence, may repeat only one 3300-4400 level nursing course from the required courses in the clinical nursing sequence; thereafter, a D or F in a 3300-4400 level nursing course will automatically disqualify the student from entering the BSN Clinical Nursing Sequence.

- e. Students who drop or fail a theory or clinical course with a co-requisite component must drop the co-requisite course.
- f. Comprehensive Exam will be administered in NSG 4417 Professional Nursing Seminar. This exam will account for 45% of the course grade. (Note: The exam is not required for students in the RN Mobility track.)
- g. Students must graduate within 150% of program completion time (7 semesters to be completed in no more than 3 1/2 years) from date of admission to the clinical nursing sequence to date of graduation from BSN program.

Additional policies related to the BSN program may be found on the School of Nursing website. Enrollment may be limited based on available resources.

Degree

Upon satisfactory completion of the program, the student is awarded the Bachelor of Science in Nursing degree and may then apply to the Board of Nursing to write the licensing examination to become a registered nurse (RN).

Locations

The clinical facilities used for student learning experiences in the BSN generic track are located in Troy and surrounding communities. Students are responsible for transportation and the cost of meals. For child health nursing, students may be assigned to learning experiences in Birmingham, Alabama.

The clinical facilities used for students in the RN Mobility track are located in a variety of settings and geographical locations.

Accreditation

The associate nursing program at Troy University at the Montgomery Campus located in Montgomery, Al is accredited by the:

SOCIAL WORK PROGRAM

Specialized General Studies Requirements

Students will complete the general studies requirements as outlined in the general studies section of this catalog with the following exception. In AREA II take COM 2241 and any 1000-2000 level Literature Series (6 hours); and, in Area IV take a History Series (6 hours). The following general studies courses are required for social work majors: ANT 2200, ECO 2251, POL 2241, PSY 2200, SOC 2275, and PSY 3304. Courses with similar content in General Studies may be considered for substitution by the department chair.

Admission to the professional social work curriculum

Students must be admitted to the professional social work curriculum in order to enroll in advanced social work courses, beginning with SWK 3390. Students are encouraged to declare social work as a major during the freshman or sophomore year in order to ensure that they will meet the requirements for admission in a timely manner. Otherwise, the student may be out of sequence in meeting program requirements for admission. Admission to the professional social work curriculum is usually accomplished during the first semester of the junior year concurrent with enrollment in SWK 2250, which precedes enrollment in SWK 3390 the following semester. To be eligible to apply for admission, each social work major must (1) have a minimum GPA of 2.5 (on a 4 point scale) in all college courses attempted and have completed a minimum of 30 semester hours, and (2) have completed or be currently enrolled in ENG 1101 and 1102 or ENG 1103 and 1104; COM 2241 or 2243; HS 2240, 3310 and 3370; and SWK 2250 and 2280 (or be currently enrolled) with a grade of C or better. The procedure for applying for admission to the professional social work curriculum may be obtained from the Social Work Department. Students completing all but 3-6 hours of general studies courses will have the best opportunity of being unconditionally accepted into the program. Students with more than 6 hours may have a delayed acceptance or conditional admission.

Progression in Social Work

- Students are required to make a grade of C or better in each of the required departmental core and professional curriculum courses (all HS, RHB, and SWK prefixed courses.)
- Students may repeat only one 3000-4000 level departmental course; thereafter, a D or F in any 3000-4000 level departmental required course will result in automatic dismissal from the social work program.
- Remains in good standing by maintaining, at a minimum, a 2.5 GPA in all course work taken and a 2.5 GPA in all required departmental and professional courses.
