School of Hospitality, Sport & Tourism Management

The Troy University School of Hospitality, Sport and Tourism Management (HSTM) offers a Bachelor of Science degree in Sport Management and Hospitality, Tourism and Event Management, with an accompanying advisor approved minor. The School HSTM believes the practical experience gained through an internship is essential to the student’s education and professional growth. Therefore, all undergraduate students seeking a B.S. in the School of HSTM are required to complete an internship.

Prerequisites for Undergraduate Internship (HSTM 4490)

In order to register for HSTM 4490, each HSTM student **MUST** meet the following requirements the semester **BEFORE** the semester you intend to intern.

1. Successful completion of all HSTM 3000, and most 4000-level courses. (Exceptions may be made with approval from Internship Program Coordinator)

2. **TROY CAMPUS** students are allowed to register for up to 6 semester hours **DURING** internship. Therefore, only students with 6 or fewer hours remaining in HSTM courses (excluding internship) will be allowed to intern.

3. Attained senior level standing (successful completion of 90+ hours).

4. A minimum of **4 weeks PRIOR** to the intended semester of the internship, students must submit an Internship Request Form (A-1), an Agreement for Internship Form (A-2), and an unofficial Troy University Academic Evaluation to the Internship Program Coordinator. You may obtain an unofficial Troy University Academic Evaluation online through Trojan Web Express.

**NOTE:**

Objectives of the HSTM Internship Program

The HSTM internship program offers students a broad range of experiences in which to complete their practicum and internship assignments. One of the most important factors in ensuring a successful experience is matching the interests and preparation of the student with qualified personnel from agencies across the state, region, nation and world. The specific purposes of the internship program for the student, agency, and university are as follows:

1. To provide students with experience upon which to build their professional careers, to enhance understanding of theory and technique through practical applications, and to provide the opportunity for students to develop skills and knowledge within identified areas of professional interest;

2. To broaden students’ concepts of the professional field, provide experiences that will expand the student’s understanding of human behavior, and develop better human relation skills;

3. To operationalize a set of goals and objectives prepared by the student with the assistance of the student’s practicum/internship supervisor and the student’s advisor;

4. To provide agencies with additional quality personnel, to offer professionals in the field an opportunity to become involved in the preparation of future professionals, and to enhance communication between the University and working professionals; and

5. To provide the University with an opportunity to keep in touch with recent developments within the work place, and continually develop a viable base for evaluating student performance in professionalsituations.

Benefits of the Field Experience

The practicum/internship experience should be a significant experience for all involved: the student, agency, and University. It should provide specific benefits to each of the three parties involved, and thus will help to benefit the profession in general. Specific benefits for each are detailed below:

Benefits to the Student

1. Gain first-hand knowledge and understanding of agency programs and the forces that affect them;

2. Understand individual and community needs for which these services are designed and the impact they have on individuals, groups, and the community;

3. Accept the challenge and stimulus to learn and investigate independently;

4. Integrate and apply knowledge and theory from classroom courses and other life experiences;

5. Establish contacts with industry professionals;
6. Become aware of and evaluate his/her own personal values and professional goals; and
7. Discover personal strengths, which may be further developed, and weaknesses that may be reduced.

**Benefits to the Agency**

1. Stimulate professional staff and strengthen in-service development programs.
2. Enlarge the available staff, permitting strengthening of the agency program.
3. Provide an opportunity to evaluate young professionals in order to enhance the screening procedures of future employees.
4. Offer an opportunity to assist in preparing professional leaders of the future through interaction with faculty.
5. Assist the agency in relating its services to current theory and practice.
6. Provide contact with professional educators in order to help maintain a vital and current professional staff.

**Benefits to the University**

1. Improve the educational process and enlarge the scope of the University.
2. Provide a laboratory for application of theoretical knowledge.
3. Provide continuing opportunity for evaluation of the student’s needs, abilities, and progress, leading to adjustment in his/her program.
4. Encourage faculty contact with professional leaders and cooperating agencies on a regular basis to enhance faculty knowledge of practical issues in the field.
5. Lead to continuing evaluation of the entire curriculum.
6. Increase the school’s services and scope of influence.

**General Description of the Internship Experience**

The HSTM internship experience is assigned six (6) semester hours. Such experiences offer the student the opportunity to apply theory and knowledge in real-world situations under qualified supervision from the cooperating agency and the university. An internship on the undergraduate level is required of all students in the HSTM program under the title HSTM 4490 Internship. All students work under the supervision of a university and agency supervisor for the full semester in which the student is enrolled for internship credit.

**TROY CAMPUS** students will register for HSTM 4490 Internship for ONE full semester. The internship experience is a full-time experience and requires a **minimum of 270 hours** over the **semester**. Additional hourly assignments may be required depending upon the type of
experience undertaken. Assigned supervisors from both the agency and the University will jointly share supervision of the student. (Questions? Contact Internship Program Coordinator)

Financial compensation to the student during the practicum/internship experience is not required. The student may not receive credit for work being done at an agency where he/she is presently employed. Exceptions to this policy must be approved by the Internship Program Coordinator before receiving credit, and must include experiences additional to those for which the student has been compensated.

Academic evaluation of the student during the practicum/internship experience is based upon the following: evaluations by the field supervisor, evaluation by the Internship Program Coordinator and documentation of daily/weekly assignments.

**Types of Internship Experiences**

Because each agency is unique and each student has special skills and interests, the practicum/internship experience must be individualized. It is anticipated each student will have an opportunity to gain experience in all or most of the following areas:

1. **Client Interaction** – The student should have the opportunity to interact with the agency clientele in any way in which the agency feels appropriate. The student should realize that they type of client interaction made available to him/her will vary depending on the type of field experience and the agency’s needs and regulations;

2. **Administration** – The student should have an opportunity to study and observe in action the policies and practices of the agency. This would include the study of the legal status of the agency, organizational structure, board relations, financial and supervisory practices, general staff relations, and the values of the techniques used in dealing with the public in a courteous and effective manner;

3. **Programming** – The student should not only help plan but also help put into action a broad program of activities and services of the agency. The student should prepare program plans in an effective manner consistent with the agency’s procedures and act as a leader in carrying out various types of programs;

4. **Facilities** – The student should have opportunities to gain theoretical and practical experiences in facility operation and/or planning. This might include experiences in long range planning, equipment selection, security, equipment maintenance, etc;

5. **General Experiences** – The student should gain a broad experience in dealing with public relations problems, attend administrative meetings where possible, work with committees, visit with individuals in the agency, and get as wide of a range of experiences as possible; and

6. **Day-to-Day Activities** – In order to give the student a realistic work experience, he/she would be encouraged to fully participate in the day-to-day activities of the agency. These experiences may occasionally include such activities as record keeping and handing out towels, etc. However, keep in mind that the practicum/internship should be a learning experience for the student and not just “free labor.” Therefore, the agency is encouraged to offer the student a variety of challenging experiences.
Responsibilities of the Student

The student is responsible for completing the requirements of the internship experience and following the general guidelines listed below:
