## Graduation Ideas from Facebook

If we can't have a graduation for the class of 2020, I think we should all line up in our cars with our senior, and do a parade throughout the town and neighborhoods. Ask everyone to stand on their lawn as the kids wave out the window! So family and friends can still celebrate them and still be 6 feet away from everyone.

Ask for the police to escort them with sirens on and flashing lights!

At the end, have the principle walk up to the window and hand the kid their diploma!

Give these kids a way to go out with a BANG! And a moment they will cherish together!

Unique graduation for unique times!
