Alabama State Department of Education Region 11 Educators Urged to Participate in Annual Needs Assessment

The Alabama Regional Inservice Centers have commenced their annual needs assessment, calling upon educators in Region 11 to actively participate.

By actively participating in this assessment, educators have an opportunity to influence the direction of professional development programs and services provided to them.

The needs assessment survey is designed to gather information on a wide range of topics, including pedagogical approaches, technology integration, classroom management, and more. Educators are encouraged to provide candid feedback, as this input will be instrumental in tailoring resources and training sessions to enhance their effectiveness in the classroom.

To meet the deadline for participation, all educators in Region 11 are kindly requested to complete the survey by **October 12, 2023**. The information gathered will be kept confidential and used solely for the purpose of improving educational support services in the region.

By actively engaging in the needs assessment, educators in Region 11 can help shape the future of professional development opportunities, ensuring that they receive the training and resources necessary to excel in their roles and, ultimately, provide the best possible education to their students. Your input matters, so be sure to make your voice heard by participating in this important initiative.

Sample Resolution

Resolution Introductory Phrases

After you send in your Pre-Registration and Nation Selection Form, you will be notified by the SAMUN Committee of your Nation. Then begin preparing your resolution.

Preparing a Resolution can be an exciting part of SAMUN preparation. Be sure to involve every member of your nation in its preparation.

The Sample Resolution presents one idea. There are hundreds of others dealing with such subjects as world hunger, terrorism, boundary disputes between nations, establishing a study committee, nuclear weapons, pollution, education reform and others. However, be sure that you first study your nation and how it stands on world issues. Your Resolution should be written from your nation’s point of view. The material you receive from the SAMUN Committee will help you begin studying more about your nation. The library will also provide information. Remember, you will be attending SAMUN as a representative of a nation. You’re to act and think as closely as possible to that nation.

Before you get started with you Resolution, study the PREAMBULATORY and OPERATIVE clauses.

Each Resolution is a single sentence, with the different sections separated with semicolons and commas. The Resolution is divided into two parts: perambulatory and operative clauses.

PREAMBULATORY CLAUSES: These are the justifications for actions. They usually begin with present participles and denote Charter authorizations for actions, past Resolution precedents and statements about the particular purposes for the action.

OPERATIVE CLAUSES: These are the policy portion of the Resolution. Each of these starts with a verb, and taken as a whole, deals thoroughly with one idea arranged in a logical progression. Each clause should not be a collection of unrelated thoughts or statements on a broad topic, but should deal with only one aspect of the problem.

REGION 11

Strong Leaders, Strong Readers

Strong Leaders, Strong Readers is designed to address the distinct needs of building-level administrators within Alabama schools catering to students in kindergarten through third-grade. These professional learning sessions will integrate insights derived from ARI's Student-Centered Coaching Labs, attended by local reading specialists. Furthermore, the discussions and educational components will be centered around fortifying participants' literacy knowledge, along with crafting frameworks and support mechanisms to increase student achievement. Participants will delve into the expectations concerning the extended implementation of the Alabama Literacy Act, conduct thorough data analysis, and leverage data insights to steer instructional decisions, thereby optimizing the outcomes of student learning in Alabama.

Everyone Counts

Leaders Count, Students Count with an emphasis on AL-MTSS is designed to address the distinct needs of building level administrators within all Alabama schools catering to students in kindergarten through fifth grade. Through these professional learning sessions, we will develop the foundations required to build a strong awareness and response to mathematics instruction and data as well as to ensure that all students' needs are being met through our academic and behavioral structures. Through AL-MTSS we will refine our academic, behavioral, and foundational wellness supports to ensure success for ALL students. This year, an ACLD-PLU may be earned (pending approval) for participation in our Leaders Count, Students Count sessions.
