Definition and Classification (competitive partnerships vs service partnerships)

Competitive Partnerships

Competitive Partnerships are defined as partnerships (grants and/or contracts) that require applicants, through an open Request for Proposal (RFP), to submit applications or proposals to obtain funding. Not all submitted proposals are selected in a competitive process.

Partnerships initially secured through a competitive process, then renewed based on project performance, are also included as competitive funding. These projects are asterisked in Sponsored Program detail reports.

Service Partnerships

Service partnerships are relational partnerships in which the university provides a specific service at the request of the partner. These partnerships are not open to other service providers through an open Request for Proposal (RFP).

Dollars Pursued (Activity) Report Definitions

- The **“dollars pursued” report** is a snapshot of dollars pursued between two fixed dates (September 1 - August 31) and may change daily.
- The final comparative number of dollars pursued is **not “final” until all partnerships have received partner notification** (i.e. funded/not funded).
- **Funded** partnerships (including multi-year partnerships awarded in budget cycles) are recorded according to the budget period.
- **Not Funded** partnerships (the total amount requested) are counted in the year that they are submitted
