DR. RUGG SPEAKS TO FACULTY AND STAFF

As Troy State University at Dothan plans to begin the preparation for the self-study procedure for re-accreditation from the Southern Association of Schools and Colleges (SACS), Dr. Ed Rugg spoke to the faculty and staff at the opening of the Fall Quarter 1987.

Dr. Rugg serves as Interim Vice President of Academic Affairs at Kennesaw College in Marietta, Georgia. At the TSUD faculty/staff meeting Dr. Rugg explained the new developments in the accreditation process which SACS is currently using. The topic of most concern for colleges and universities seeking re-accreditation is institutional effectiveness and the best method and procedure to demonstrate institutional effectiveness.

Kennesaw College has recently undergone the re-accreditation process and

received outstanding recognition as a model in showing institutional effectiveness. In defining institutional effectiveness, Dr. Rugg stressed four main points.

Troy State University at Dothan faculty and staff must remain loyal to the achievement of academic excellence and not focus primarily on testing as an indicator of effort and results. Second, Dr. Rugg reminded his listeners that a college that cares about its students is very important. Rugg said, "Students are the first-line ambassadors for educational institutions."

Third, the faculty and staff need to meet the needs of the community. "Our public is like our stockholders," Dr. Rugg said. "The quality of life and education are closely linked. One enriches the other." The University must constantly be seeking

new ways to serve and become a contributing part of the region.

Finally, Dr. Rugg's fourth point related to the attitude of a university's faculty and staff. He said,

"You need people with vision that are willing to take risks." He closed with the concept of "three R's"--recognize your opportunities, risk reaching for them, and run with the ball.

NEW CAMPUS PLANS

The architects for the new TSUD campus have submitted one set of plans for the new campus on Highway 231 North. After meeting with the Executive Committee and other interested individuals, the architects are now revising. The current plans call for three buildings and a physical plant. Faculty and staff with concerns, questions, and ideas for the new campus should contact Dr. Lovrich or a member of the Executive Committee. With the plans well under way, we hope to see some activity at the site before long. The Greater TSUD Development Committee is re-activating its efforts to raise some of the funds.

FALL ENROLLMENT

The headcount enrollment for Fall Quarter 1987 shows a good increase over the enrollment for Fall Quarter 1986. With the final figures for enrollment to include all contract programs, the headcount will be 1,838, which is a 7.5% increase over the Fall 1986 enrollment of 1,710.

Mr. Thomas Harrison, President
Office of the President
Troy State University at Dothan
P. O. Box 6947
Dothan, AL 36302-6947

Dear President Harrison:

Please know that it was with mixed emotions that I informed you, Dr. Sublette, and Dr. Lovrich in July of my plans to retire effective August 31, 1987.

I shall be ever grateful to you, Chancellor Dr. Ralph Adams and Mr. Don Gibson for giving me the opportunity to join TSUD January 20, 1987. It has been a privilege and pleasure for me to serve on your staff. I have seen firsthand, the fine leadership you are providing TSUD, assisted by a very capable and dedicated faculty and staff. I say without reservations TSUD is definitely a credit and asset to the TSU System. My having been privileged to work for and with Dr. Adams, Dr. James D. C. Robinson, Don Gibson and the TSU at Troy staff, and, President Gene Elrod, Don Threlkeld and the TSU at Montgomery staff, 1979-81, I believe qualifies me to make that evaluation.

I have truly enjoyed working on the TSUD Development Fund with you, Dr. Sublette, Dr. Lovrich, and Co-chairmen: Mr. Pierce Flatt and Mr. A. C. Allen; Subcommittee Chairmen: Mr. Doug Killingsworth, Mr. Cecil Milner, Mrs. Sara Wise, Mr. Thomas Bracewell and Dr. Mary Shoaf. I firmly believe the "Vision for Excellence" will be fulfilled with a new and beautiful campus that will prove to be the catalyst for the future of the Wiregrass and Tri-states area and greatly enhance the TSU System. As I leave TSUD, I would like to believe my efforts have contributed to the mission.

It has also been a pleasure working with a great group of dedicated faculty and staff, too numerous to mention individually. All have been most cooperative, congenial, helpful and I shall always treasure your and their friendship.

At age 67 and a forty-one year career after leaving the military following WWII, I feel it is time for my wife Louise of forty-two years, and me to "stop and smell the roses." Our having

two daughters, a son-in-law, two nieces and many close friends who attended TSU, it will always have a special place in our hearts. We are looking forward to visiting the new campus of TSUD in the years ahead.

I pray you, the TSUD faculty and staff; Chancellor Adams and the TSU System; the Greater TSUD Development Fund Committee and families, will have many years of good health, happiness and success.

May God bless you all.

Sincerely,

Al Childs
Administrative Assistant &
Subcommittee Chairman
