CBES OFFICE ESTABLISHED AT TSUD

The Dothan Area Chamber of Commerce was the site for a press conference and formal announcement concerning the location of a Center for Business and Economic Services (CBES) on the campus of Troy State University at Dothan. Dr. Harrison opened the press conference by welcoming everyone that was in attendance and by expressing his enthusiasm for yet another essential part to the expansion of TSUD.

Dr. Jack Hawkins, Jr., Chancellor of the TSU System, was on hand to offer his comments on the significance of the CBES office location at the TSUD campus.

Mr. Alfred Saliba, Mayor of the City of Dothan, Mr. Robert Crowder, Chairman of the Houston County Commission, and Mr. Alan Livingston, Chairman of the Board of Directors for the Dothan Area Chamber of Commerce, voiced their satisfaction regarding the efforts of Dr. Thomas Harrison and everyone involved with TSUD. All three gentlemen expressed their appreciation for the contributions that TSUD has made to Dothan and the Wiregrass region.

The CBES office at TSUD will provide research and public services, such as counseling, surveys, seminars and workshops. These services will be provided by the CBES through a full-time, local assistant director and a full-time secretary on the TSUD campus.

The CBES office will be administered under the auspices of the Sorrell College of Business and the CBES at Troy State University in Troy. The assistant director at TSUD will work closely with

the TSUD president in providing services to the Dothan area.

The CBES staff is expected to be in place by December 1, 1990. The CBES office will be located in Malone Hall, room 112-C (former office of the Center for Applied Research).

COMPUTER EQUIPMENT IS FINALLY A REALITY

To enhance its computer instruction, TSUD is installing two computer labs. One lab is being equipped with sixteen IBM PS/2 Model 30/286 computers, while another lab is being equipped with a file server and a fifteen terminal local area network (LAN).

The much needed addition will allow new dimensions in existing programs that were not possible with the older and somewhat dated equipment and, at the same time, benefit the non-credit continuing education courses and the industrial training sessions. The most positive result from the installation of the new labs will be that students will have more access to computers for lab exercises that require time outside of classroom instruction.

TUTORS NEEDED FOR THE SSSP

The Student Support Services Program is well on its way serving qualified students at TSUD. With this special service, comes the need for tutors in many academic areas. If you know of students who qualify to be tutors, please contact Ms. Sandra Carter at extension 255.

**MUSIC 361 TO PRESENT
CHICKEN LITTLE**

Dr. Shoaf's Music Education class was treated by having a musical demonstration by Ms. Nancy Nall. The students enjoyed her performance.

Music 361 class is now preparing a children's play, Chicken Little, under the direction of Teresa Smith. The play will be given on November 20 in room A-412 at 9:15 a.m. Faculty and staff are invited to attend. The play will last approximately 15 minutes.

WINTER QUARTER SCHEDULES

Believe it or not, 1991 is just around the corner. The 1991 Winter Quarter schedule of classes will be delivered on November 9, 1990. This will give ample time to prepare for Advisement Week, which begins on November 14.

THANKSGIVING HOLIDAYS

The University will be closed on November 22 and 23 in observance of Thanksgiving Day. Classes will not meet on Wednesday, November 21; however, University offices will be open and fully staffed.

PROUD GRIDIRON FATHERS

Congratulations to Gray Harrison, son of Dr. Thomas Harrison, and to Scott Walker, son of Mr. Frank Walker. These young men have been recognized by the Dothan Progress sports editor as outstanding athletes in the Wiregrass. Gray, in his senior year, is quarterback for the Northview Cougars, and Scott is a sophomore receiver for the Houston Academy Raiders.

A special congratulations goes to Gray for being chosen as MR. NHS at Northview High School.

POINTS TO PONDER

- The number of students age 25 and older enrolled in colleges and universities rose by nearly 2 million between 1974 and 1988, an increase of 59 percent.
- However, the enrollment rate of these age groups -- that is, the percentage of the population enrolled in higher education -- has varied only slightly over the past 15 years.
- The increase in persons over the age of 24 in the student population appears to be due more to growth in the population base than to changes in participation rates in that population.

COUNSELING SERVICES

October was a busy month for the Office of Counseling Services. October 21-27 was the national Red Ribbon Campaign. This is a program to emphasize student awareness concerning the need for reducing drugs in the United States. TSUD students and staff proudly donned their "NO" ribbons.

National Collegiate Alcohol Awareness Week was observed on October 15-18.

This was combined with the Red Ribbon Campaign. In order to remind the students and staff to think about driver safety as we approach the holiday season, the Dothan Police Department and the Department of Leisure Services supplied a wrecked car for display on the TSUD campus.
