RECORD ENROLLMENT FOR FALL QUARTER

Enrollment for the 1992 Fall Quarter at Troy State University at Dothan and its Fort Rucker location exceeded expectations of University officials. For the past five years, enrollment has increased over the same quarter of the previous year. Fall Quarter 1992 marks twenty-one consecutive quarters of increased enrollment at TSUD. The official figure stands at 2,319 students (including unduplicated headcount from fall interim), a 13.8 percent increase over the 1991 Fall Quarter figure.

There are several factors that could have influenced such an increase for this quarter. "The considerable increase of students from the adjacent counties of Florida and Georgia can be attributed to the new tuition policy for those counties," stated Dr. Frank Lovrich, Vice President for Academic Affairs at TSUD. Effective fall quarter, residents from seven adjacent counties in Florida and Georgia pay in-state tuition. These counties include Clay, Early, Miller, and Seminole in Georgia and Holmes, Jackson, and Washington Counties in Florida. "Beyond the new tuition policy, it is becoming a realization that these students are part of this region, and their educational needs can be met without having to look elsewhere," added Lovrich.

Flexible scheduling options and alternative delivery systems also contribute to the increase in enrollment

for TSUD. "The flexible scheduling and alternative delivery systems that TSUD provides are obviously meeting the needs of our non-traditional student population," stated Dr. Debbie Goodman, Assistant to the Vice President for Academic Affairs for Special Programs at TSUD. The Fall Interim Session, a three-week period offered to students to accelerate their degree completion process, showed an increase of 72 percent over the previous year. Weekend University has increased 107 percent and telecourse offerings increased by 59 percent over the 1991 Fall Quarter. "Our goal is to assist students in completing degrees in a more timely and efficient manner," added Goodman.

Dr. Jack Sublette, Executive Vice President and Vice President for Student Affairs and Development, remarked, "TSUD strives to offer programs of high quality in a flexible scheduling format so that the citizens of the Wiregrass region can stay at home and earn a quality education."
