As budget cuts become a necessary part of the University environment, new ways of supporting TSUD must be found and utilized. Grants are one way of obtaining resources for our needs, with our Student Support Services program as a prime example of a grant received from the government. Grants can also be obtained through foundations. Colleges and universities were the largest recipients of grant dollars from foundations in the Southeast in 1992. Alabama has over 343 grant awarding foundations. The Library has resources to help in locating and applying for grants. Some of the most useful resources are:
