### IV. Chancellor's Report

Chancellor Hawkins thanked the members of the staff and everyone for joining the meeting today and said following the meeting Patterson Hall will be dedicated in honor of Dr. Douglas C. Patterson.

The Chancellor gave the following update.

The Chancellor reminded everyone of the University's motto "*Educate The mind to think, the heart to act, and the body to feel*" which was coined in 1887. He outlined the agenda items before the Board today. Dr. Hawkins shared several validations that reflect the good work of the faculty, staff and students which included the (1) recognition by the Princeton Review, recognition as one of the top providers for the military, received accreditation for the Geomatics programs and for Athletic Training, and the Chancellor shared that the University is third most popular Alabama university in student applicants, international students, and car tag sales.

An enrollment report was given showing a comparison from 2005 to present and enrollment for 2005 was at 5,834 for fall compared to 7,778 in the fall of 2011. Dr. Hawkins added that with the economic downturn we are facing some challenges and he pointed to four key factors we are dealing with which includes (1) Southern Association of Colleges and Schools (SACS) review resulted in reduced course offerings and elimination of cohorts, (2) proration, economy and college affordability. Result: delayed college decision, opting for affordable community colleges, (3) increased competition—especially in Distance Learning. Result: Troy market share impacted as for-profits and in-state universities ramp up, and (4) increased admission standards. Things the university is doing to overcome these challenges include increasing online academic programs, simplify webpage access, increase marketing and promotion, and coordinate recruitment efforts across the system.

The Chancellor continued by saying that the University will be offering new undergraduate programs as follows:

- Bachelor of Science (BS) & Bachelor of Arts (BA) in Anthropology
- Bachelor of Fine Arts (BFA) in Dance
- Bachelor of Science in Health Education
- BA/BS Liberal Studies
- BA/BS Sociology
- BA Spanish
- Computer Science Cybersecurity
- Public History Concentration (new addition to BA/BS History)

New graduate program offering will include:

- Education Specialist (Ed.S) Instructional Leadership
- Master of Science (MS) Adult Education
- MS Second Language Acquisition
- Masters in Accountancy
- MS in Strategic Communication
- International Master of Business Administration (MBA)

An update was given on the Sponsored Programs area and Dr. Hawkins shared that several Troy University students went on an expedition to Israel, the Ashkelon Dig, which is in partnership with Harvard University, Wheaton College and Boston College. In regard to the Gulf of Mexico Research Initiative, BP funded initial grants for Drs. Stephen Landers and Kewel Yu totaling \$73,147. Dr. Hawkins advised that we have a Fulbright Scholar, Sergey Belyi, going to the Ukraine. Other grants received included US Department of Education (\$98,750), ADECA grant for bulletproof vests (\$3,125) and campus perimeter cameras (\$28,423), Choctawhatchee, Pea, and Yellow River Watershed Management Authority (\$15,000).

The Chancellor shared an update on the Trojan Dining facility, adding that sales have increased approximately 20% since the new facility opening—up from \$2M to \$2.4M.

In regard to the Newman Center resolution the Board will consider today, the Chancellor shared architect renderings with the Board. The Newman Center will be located on Collegedale diagonally across from the Trojan Dining Facility. The Newman Center will be operated in partnership with the Catholic Church and at the end of debt cycle the ownership will reverse to the University. The inter-denominational facility will house approximately 376 students.

Senator Dial thanked the Chancellor for a great report and added that to hear everything the leadership has going on at the University is exciting. Senator Dial said he looks forward to the upcoming events as reported by the Chancellor. He added that the trip to the Naval Academy was outstanding with the exception of the score of the football game. He encouraged anyone who has the opportunity to visit the Academy to do so. Everyone was encouraged to be involved in the University's 125<sup>th</sup> birthday celebration.

Senator Dial continued his comments about the Bylaws Amendment which had been added to the agenda by a vote today. He called upon Mr. Higgins to report on the Bylaws Amendment.

The floor was opened for discussion. Mr. Higgins briefed the Board on the amendment saying that it had been vetted unofficially through the Bylaws Sub-Committee—Trustees Carter, Latta and himself—and he added that what they are attempting to do with the Bylaws is to look at how we operate under the present document, and put everything in a methodical order so that new Board members would easily understand their responsibilities, would see what a committee's objectives would be, and would be clear on duties and responsibilities of Board members. What has been done is replace the existing four standing committee structure with six standing committees. Mr. Higgins added that some objectives have been added to the proposed six so that they know the realm in which they operate. Mr. Higgins then moved for adoption of the proposal Bylaws amendment.

**ACTION: MR. HIGGINS MOVED THAT THE BOARD ADOPT THE PROPOSED AMENDMENT TO THE BYLAWS AS IT RELATES TO STANDING COMMITTEE STRUCTURE. DISCUSION: MR. **C. Academic Affairs, Mrs. Carter**

Mrs. Carter reported that the committee had not met but she did want to make a few comments. She reported that she had talked with Dr. Earl Ingram, Senior Vice Chancellor for Academic Affairs. There are some things that the Academic Affairs Committee will need to know and when the committee meets she has asked Dr. Ingram to share some of the things he thinks are most critical to the academic division that the Board committee could bring to the Board to be of help. She said that one of the things identified is to look at student enrollment and what the committee can do to continue to work across divisions to increase enrollment; she added that Chancellor Hawkins in his report today shared many of the challenges we face. She also said that they want to look at how they can help to increase program offerings such as Cyber Security. Another thing the committee wants to look at is our Global Campus reorganization. She concluded by saying that the committee would also want to talk about how they could help in the initiative for a second Ph.D. program in Sports and Fitness Management. In this regard, Senator Dial said that it would be helpful for Board members to be provided with a listing of Commissioners for the Alabama Commission of Higher Education.

Chancellor Hawkins made a few comments about the University offering a Ph.D. in Sports and Fitness Management and said that the University is ready to offer the program at no

additional cost to the state. He added that the reason we think we can do this is because there is a wide market for the program including an international market.

**D. Athletics, Mr. Owen**

Mr. Owen reported that the Athletic Committee met on October 15<sup>th</sup> and he welcomed Mr. Higgins as a member of the committee. The agenda for the October meeting consisted of scheduling philosophy, the north end zone project, game day atmosphere, the new arena, and conference affiliations. He then turned the program over to Mr. Steve Dennis, Athletics Director, to give a brief report.

Mr. Dennis thanked the Board for their leadership. In regard to the new arena, Mr. Dennis said we are looking at a May-June 2012 for occupancy. On scheduling Mr. Dennis talked about the new National Collegiate Athletic Association (NCAA) rules as it relates to new expenditures. He addressed briefly the committee's discussions about scheduling and conference alignment. Mr. Dennis talked about the fundraising campaign and said we are working toward a goal of \$5M. He thanked Board members for helping them work toward this goal.

Mr. Dennis gave an update on the football program and said that the basketball team will play in Birmingham Tuesday night and back in Troy on November 29<sup>th</sup>. He reported that the rodeo team will be hosting a rodeo in Troy this weekend.

Mr. Higgins commented that it is important that we maintain a relationship in tying academics to athletics. He suggested that in the future at football and basketball games when we introduce our players on the jumbotron we should have their academic major listed along with their name and hometown. He added that when a school/college is recognized that the number of athletes in the school/college be included. He strongly encouraged the Athletics Director and administration to work toward getting those messages out to our fans and clientele.

**E. Development, Mr. Drinkard**

The Development Committee had no report.

**F. Long-Range Planning, Mr. Nailen**

The Long-Range Planning Committee had no report.

**G. Student Affairs Committee, Mr. Higgins**

Mr. Higgins said that the Student Affairs Committee had not met but one thing they would like to do since they have already toured the dining facility is to tour the residence halls. He added that the involvement of the Student Government Association (SGA) President on the committee will be a driving force in what we do and how we try to serve the Board.

The Chair recognized the SGA President, Mr. Darreyel Laster, to make a few comments. Mr. Laster stated that the SGA will be working with the University in regard to Americans with Disabilities Act (ADA) requirements and cited an example of a problem shared by a student in regard to parking and bathroom facilities in Wallace Hall. He added that the SGA will be working with Dean of Students Herb Reeves, and Chief of Police John McCall. Mr. Laster also reported that he is working with the university in regard to roof leaks at Alumni Hall. Dr. Bookout advised that the university is working on the problems in Alumni Hall. Mr. Laster stated that the SGA is working on a new Constitution and they would like to improve SGA relations with the Board, administration, faculty, and staff. Another initiative the SGA is working on is to try to get more adequate funding for student organizations. Mr. Laster concluded his remarks saying that the SGA will work to try to establish student groups on the Phenix City, Montgomery, and Dothan Campuses.

**• Forensics Institute Presentation, Mr. Greg Price**

Mr. Price gave an overview of the Alabama Computer Forensics Institute (ACFI) saying that the Troy University Information Technology (IT) Department manages a global technology infrastructure that encompasses more than 50,000 end users in 16 time zones. Mr. Price said by capitalizing on the tremendous experience in information security, the IT Department in 2006

launched the Computer Forensics Institute and Lab. He said the primary mission of the ACFI is to meet the digital forensics needs of agencies and departments throughout the state of Alabama. The ACFI's mission, Mr. Price stated, requires the availability of highly-trained and well-equipped digital forensics examiners to support federal, state, and local investigations and prosecutions. In this capacity, he said, the ACFI assists with the seizure of digital evidence; conducts impartial and objective analysis of digital evidence using the best available tools and procedures available. Mr. Price stated that the ACFI is widely revered as advocates of child safety and has significant experience in processing and analyzing electronic media which has proven instrumental in convicting numerous child predators.

Mr. Latta commented that he was amazed and impressed with the Institute. He added that he is a civil lawyer and said that electronic document fraud is happening around the world. The need for such capabilities is growing in the military, Homeland Security and many others are looking to companies such as this for assistance in the private sector.

Mr. Nailen echoed Mr. Latta comments about how impressive the Computer Forensics Institute and encouraged those who have not toured the facility to do so if the opportunity presents itself.

Senator Dial thanked Mr. Price for his presentation and for the great job he and his colleagues do in regard to the Institute.
