TROY
UNIVERSITY

Dr. Xu,

I would like to express my sincere gratitude for your support of my recent visit to China funded by Confucius Institute of Troy University, Beijing Normal University and Linyi University (Shandong).

Due to this visit, my scientific collaboration with mathematicians from these universities has reached a new level. I gave multiple talks for faculty, graduate and undergraduate students, conducted fruitful conversations and discussions about specific research results and open problems in the area of mixed hypergraph coloring.

Last but not least, I by myself discovered much, and made a lot of new friends in China who have heard, now know well and have the highest opinion about Troy University.

Once again, thank you very much for this opportunity to make a modest difference in international recognition of Troy University.

Sincerely,

Vitaly Voloshin
Professor of Mathematics

Dear Dr. Xu:

On behalf of the College of Business Administration (COBA) at Alabama State University (ASU), please accept our sincere appreciation for the efforts you extended arranging and approving the inclusion of ASU in the China culture trip. The experiences that the students had and the places that they visited will remain a highlight of their college years. Not only were their horizons broadened, but they returned with a new perspective of their place in the world. Beijing, Shanghai, Suzhou, and Hangzhou provided them with a view of history that cannot be seen without being at the places, walking the paths, and climbing the walls that are read about. History was brought to life and their eyes were opened to a wonderful and rich culture.

Ms. Tingting was the perfect group leader, and added to each experience with her knowledge of the country and its history. I know that this was her first trip as group leader, and I commend her for flawless and magnificent execution.

The students have already inquired about having a course in either Conversational Chinese or Chinese for Business, taught at ASU this fall. Before the end of the summer, I would very much like to discuss with you that possibility and how ASU can continue to be included in the Confucius Institute's China cultural experience.

Thank you again, and have a wonderful summer.

Sincerely,

Le-Quita Booth, Dean
College of Business Administration
