

## Montgomery Focus- Eating Etiquette in China

On November 08, CIT Montgomery Campus held the sixth lecture of Montgomery Focus on Chinese Culture in Bartlett Hall in the Fall Season with the title *Eating Etiquette in China*. At first, Ms. Kai Zeng briefly compared the food and banquet between America and China. Then she introduced the importance of business dinner, seating arrangement, chopsticks, eating etiquette and drinking etiquette. The whole lecture not only presented the participants the varieties of Chinese cuisines, but also taught them the different ways of making dumplings in China. As a state of courtesy, China has always attached great importance to etiquette. Chinese dining etiquette is an important portion of Chinese food culture.
