

CIT Successfully Held 2017 Winter Semester HSK、HSKK and YCT Tests

On November 11, 2017, Confucius institute at Troy University held the winter semester HSK、HSKK and YCT Tests at the Indian Springs School in Birmingham. There are about 40 students attended HSK and HSKK test from Level 1- Level 5 and YCT test from Level 1- Level 4. After the test, students felt good and gained confidence through the experience of attending Chinese language test. We believe that they will be able to challenge higher test levels in the near future. We trust that with the increasing number of local Chinese language learners, more chances of taking HSK、HSKK and YCT Tests will be offered by CIT. All CIT teachers will work hard to better serve Chinese language learners and hope they will make progress in Chinese.
