

CIT Snapped A Shot in Multi-cultural Celebration in Enterprise

On Oct. 19, 2017, CIT was invited to participate the multi-cultural Celebration held by Enterprise City School. At six o'clock in the evening, representatives from various parts of the world were all present dressed up in their traditional clothing. CIT has always been an active participant of this event and brought wonderful performances as usual. The joyous flute and graceful folk dance left strong impression on the audiences. Not an exception this time, CIT's display counter was the hottest spot as ever. People enclosed the display counter, trying Chinese calligraphy, paper-cutting of the character "xi" and making Chinese knot. All these activities kept them fully occupied, which displayed their great interest in Chinese culture. Some parents asked questions and wanted more information about other opportunities to get to know Chinese culture. As the celebration was approaching to the end, some children still lingered around and were reluctant to leave. How powerful and attractive the Chinese culture is! CIT will continue to spare no efforts to enrich the American local culture, promote Chinese culture and push the communication among different cultures.
