

CIT Was Invited to Dothan City School's Education Showcase

On January 25, 2018, CIT was invited to the Ninth Dothan City School's Education Showcase, which is a grand annual event sponsored by Dothan Education Foundation and Dothan City Schools aiming at presenting their yearly achievements in education. CIT keeps good cooperative tie with Kelly Springs Elementary School and Highlands Elementary School, of which the activities of Chinese language and cultural experience have always been a strength and distinguishing feature. At this showcase, CIT staff brought children's art works of Kelly Springs: lovely pandas drawn by them and Chinese characters neatly written by them.

Kelly Springs is the earliest elementary school which runs Chinese language and cultural experience activities. CIT staff wholeheartedly share the beauty of Chinese language and culture through rich and diverse activities, which has produced unanimous favorable comments from students, teachers and parents. At present, students from Kelly Springs can have daily conversation in Chinese, sing Chinese songs and read Chinese poems. These performances have repeatedly appeared in various artistic activities at Kelly Springs.

Students, teachers and parents present in this Education Showcase were amazed by the Chinese level of students from Kelly Springs and their interest in Chinese culture. They were eager to get more information about the Chinese cultural activities provided by CIT. CIT will always spare no efforts to provide better services for the local communities and let American people get more opportunities to have a close contact with the charming beauty of Chinese culture.
