

Visiting Scholars from CIT Visited Vice Chancellor Dr. Don Jeffrey

In the afternoon of Mar. 14, 2018, three visiting scholars from CIT Dothan Teaching and Research center paid a visit to Vice Chancellor of Troy University, Dr. Don Jeffrey. He expressed his warm welcome and kindly asked about the recent situation in life and study of the visiting scholars. He also changed ideas with the scholars about topics in the field of historical origin of various nations and language learning. Dr. Jeffrey encouraged the scholars to cherish the opportunity to do research in America and to contribute to the cultural communication between two nations. CIT Dothan Teaching and Research Center presented him a beautiful work of calligraphy *厚德载物* as a present, which means people of virtues can full-fill important tasks. Dr. Jeffrey said that though this idiom has a long history, it is still of practical significance in today's society. At the end, Dr. Jeffrey praised highly what CIT has done for the cultural communication between China and US and wished CIT a bright and promising future.
