

## CIT Was Invited to Attend Dothan Multi-cultural Day

On Apr. 10, 2018, CIT attended Dothan Multi-cultural Day held in Kelly Springs Elementary School.

Kelly Springs has been committed to multi-cultural communication and has a good interaction with CIT.

This activity attracted parents, students and residents in various living communities in Dothan. People from different cultural background were dressed in traditional clothing and brought delicacies, music and art crafts of their nationalities to the celebration and presented their unique culture to the visitors.

CIT booth, which represented Chinese culture was the most distinguished and unique among all groups. The Teaching and Research Center in Dothan brought not only delicious Chinese food which pleased the taste buds of the visitors but also delicate hand-made arts and crafts that caught their eyes. The visitors also got chance to try Chinese calligraphy, paper cutting and playing shuttle cocks. All these activities made them excited and till the end of the celebration, many children still lingered around the CIT booth. Parents felt that this was a precious opportunity to have such a close contact with Chinese culture and expressed their wish to have more activities like this in the future. CIT will always endeavor to serve the American local community and contribute to the cultural communication between two nations.
