**Instruction for Working with Mentor:** Each time you do your intern hours you should record your hours. You should have a set place where you keep your hours whether it is with you or your mentor. At the end of the semester you and your supervisor should meet and agree whether or not you have completed your hours. Upon agreement you should write a paragraph about what you have done for the past semester. The reason we ask that you record your hours each time you work is so that it will make it easier for you and your supervisor to agree that you have completed your hours.

**Paragraph Concerning Work Completed this Past Semester:**

**Student Signature** \_\_\_\_\_

**Mentor Signature** \_\_\_\_\_

**Instructions for Leadership Role:** You were asked to set two goals for your leadership position at the beginning of this semester. Please write a paragraph about the two goals you set, what you did to accomplish them and whether or not you were successful. You may also write other information concerning your leadership position.

**Please turn report in by Tuesday, December 6th to Trojan Center 215.**
