

Do You Remember How to Divide Fractions?

- (1) Divide. Leave your answer in simplest form.

$$\frac{1}{2} \div \frac{5}{3} =$$

- (2) Divide. Leave your answer in simplest form.

$$12 \div \frac{7}{2} =$$

- (3) Divide. Leave your answer in simplest form.

$$\frac{3}{4} \div 8 =$$

- (4) Divide. Leave your answer in simplest form.

$$\frac{7}{10} \div \frac{21}{5} =$$

- (5) Divide. Leave your answer in simplest form.

$$\frac{5}{6} \div \frac{3}{5} =$$

- (6) Divide. Leave your answer in simplest form.

$$\frac{2}{7} \div 2 =$$

- (7) Divide. Leave your answer in simplest form.

$$\frac{9}{2} \div 90 =$$

Answers:

(1) $\frac{3}{10}$

(2) $\frac{24}{7}$

(3) $\frac{3}{32}$

(4) $\frac{1}{6}$

(5) $\frac{25}{18}$

(6) $\frac{1}{7}$

(7) $\frac{1}{20}$
