Ronald Erwin McNair was born October 21, 1950 in Lake City, South Carolina. While in junior high school, Dr. McNair was inspired to work hard and persevere in his studies by his family and by a teacher who recognized his scientific potential and believed in him. Dr. McNair graduated as valedictorian from Carver High School in 1967. In 1971, he graduated magna cum laude and received a Bachelor of Science degree in Physics from North Carolina A&T State University (Greensboro). Dr. McNair then enrolled in the prestigious Massachusetts Institute of Technology. In 1976, at the age of 26, he earned his Ph.D. in laser physics. His dissertation was titled, "Energy Absorption and Vibrational Heating in Molecules Following Intense Laser Excitation." Dr. McNair was presented an honorary doctorate of Laws from North Carolina A&T State University in 1978, an honorary doctorate of Science from Morris College in 1980, and an honorary doctorate of science from the University of South Carolina in 1984.

While working as a staff physicist with Hughes Research Laboratory, Dr. McNair soon became a recognized expert in laser physics. His many distinctions include being a Presidential Scholar (1971-74), a Ford Foundation Fellow (1971-74), a National Fellowship Fund Fellow (1974-75), and a NATO Fellow (1975). He was also a sixth degree black belt in karate and an accomplished saxophonist. Because of his many accomplishments, NASA selected him for the space shuttle program in 1978. His first space shuttle mission launched successfully from Kennedy Space Center on February 3, 1984. Dr. Ronald E. McNair was the second African American to fly in space. Two years later he was selected to serve as mission specialist aboard the ill-fated U.S. Challenger space shuttle. He was killed instantly when the Challenger exploded one minute, thirteen seconds after it was launched. Dr. McNair was posthumously awarded the Congressional Space Medal of Honor. After his death in the Challenger Space Shuttle accident on January 28, 1986, members of Congress provided funding for the Ronald E. McNair Post-Baccalaureate Achievement Program. Their goal was to encourage low-income and first-generation college students, and students from historically underrepresented ethnic groups to expand their educational opportunities by enrolling in a Ph.D. program and ultimately pursue an academic career. This program is devoted to the high standards of achievement inspired by Dr. McNair's life.

*Whether or not you reach your goals in life depends entirely on how well you prepare for them and how badly you want them. —*

Dr. Ronald E. McNair

### **Program Information**

The Troy University McNair Scholars Program prepares first generation, economically disadvantaged, and/or underrepresented undergraduates for graduate school by providing them with graduate-level research experience and support for the graduate application process. Beginning this Spring Term/Semester 2018, scholars will attend monthly seminars, which train them in research writing and design, presentations, etc. Scholars are offered intensive advisement throughout the academic year and travel opportunities to present research at conferences and/or campus visits. During the Summer Term/Semester 2018, scholars will engage in a research internship consisting of a Graduate Record Exam (GRE) prep course and a Research and Graduate School Strategies course while conducting research.

### **Program Eligibility**

McNair: All McNair Scholars are selected on a competitive basis. In order to be considered for acceptance into the McNair Scholars program, an applicant must meet the following criteria:

- be a U.S. citizen or permanent resident
- be determined to pursue a Doctoral Program and show potential for success in this pursuit
- have a cumulative GPA of 2.5 or higher by Fall Term/Semester 2017
- be a Troy University student who has a minimum of 30 credit hours by Fall Term/Semester 2017
- be a first-generation AND low-income student, AND/OR a member of an underrepresented minority in doctoral studies. Groups considered to be underrepresented are Hispanic/Latino, African American, Native American/Alaska Native or Native Hawaiian/Pacific Islander.

### **Program Requirements**

Students must display a true commitment to pursuing graduate studies. Scholars must agree to participate in ALL of the following: monthly seminars, weekly advisement, workshops, faculty mentored research project, a retreat, summer research design/graduate school 101 class, summer GRE prep course, and a McNair Scholars Research Conference. Failure to adhere to attendance requirements is grounds for dismissal. Participants are required to maintain a minimum of a 2.5 cumulative GPA.

### **Program Benefits**

Scholars will participate in a summer research project under the guidance of a faculty mentor. Scholars will receive up to \$2,800 for an approved research project and completion of all research component activities. Additionally, select scholars will have opportunities to travel to research conferences to present their research and/or to campuses of universities with graduate programs that fit their research interests. Successful McNair Scholars will have access to McNair-specific graduate school application fee waivers and scholarships/fellowships offered by a variety of universities throughout the country.

Please initial if you have read and understood the program description, eligibility requirements, program requirements and program benefits of the Troy University McNair Scholars Program. \_\_\_\_\_

**TO THE FACULTY:**

The McNair Scholars Program is designed to prepare selected Troy University undergraduates to pursue graduate study toward a Ph.D. program. Students will spend the academic year developing writing and research skills while planning the research project that they will conduct during the summer under the direction of their faculty mentor.

Please attach a statement about this applicant that includes the following:

- How long have you known the applicant and in what capacity?
- What is your appraisal of the applicant's potential as a graduate student and as a future scholar?
- Evaluate the applicant's academic aptitude and preparation for graduate work, motivation for a Ph.D., and current academic performance in his/her area of concentration.

**The deadline for submitting all application materials including transcripts and letters of recommendation is the last Friday of the first week of May.**

## **McNair Application Frequently Asked Questions**

**Q: Do letters of recommendation need to be from Troy University professors?**

A: All applicants must submit two (2) letters of recommendation either Troy University professors or professors from your attendance at a prior college or university. Your application will be read and scored by Troy University McNair scholars search committee.

**Q: If I am an incoming transfer student, can I get letters from my Community College Instructors?**

A: Yes, this is acceptable if you cannot secure strong letters from Troy University faculty.

**Q: Can I get a letter of recommendation from an employer or an organization I volunteered for?**

A: Faculty (academic) letters are best. The recommender should speak to your ability to do research.

**Q: What happens if my letter of recommendation arrives past the deadline?**

A: No application material will be considered past the application deadline.

**Q: I am graduating soon. Am I still eligible to apply?**

A: In order to participate as a McNair Scholar, you must be enrolled in the Spring Semester and available to do full-time research during the Summer. For example, to be a part of our 2017-18 Cohort, you must be enrolled at Troy University in the Spring 2018 semester and available to conduct research during Summer 2018.

**Q: Do I need to have a Faculty mentor when I apply?**

A: No, we can work with you to find a faculty mentor if you are accepted into the program and do not already have a mentor. If you have already secured a mentor, please mention it in your application.

**Q: Am I still eligible if my GPA is below a 2.5?**

A: We are unfortunately unable to admit students with a GPA that is under a 2.5. If you are an eligible student in your Junior year at Troy University, we encourage you to work on raising your GPA and reapply during your Senior year.

**Q: Can I study abroad in the summer and still participate in the McNair Scholars Program?** A: No, you must be available to do research from June through early August. If your research requires you to travel, then you must be granted permission and return to Troy University by early July.

**Q: Will I be allowed to work and/or take classes if necessary during the summer?**

A: It is recommended that you focus solely on your research during the summer. However, you may petition to work or take a class during the summer if necessary.

**Q: Am I able to receive financial aid for courses during the summer in addition to my McNair stipend?**

A: Yes, if there are any issues with receiving your stipend, please contact us immediately to resolve the issue.

**Q: What does the timeline for participation in the McNair Program look like?**

A: Generally, in the spring semester you will work on your research proposal. During the summer, you will implement your research project and present your work at our annual Ronald E. McNair Symposium, held on the Troy University campus. In the fall semester, you will publish your work in the McNair Research Journal and apply to graduate school.

**Q: What if I am not completely sure about my research topic?**

A: Describe it to the best of your ability for the application. Your topic may change once you are admitted into the program.

**Q: What are my options if I am unable to take the GRE course during the summer?**

A: You may defer enrollment until fall semester. However, it is recommended that you make the necessary adjustments to take the course during the summer. This will allow you to focus on your course work, publications/thesis, and applications to graduate school during the Fall Semester.
